- d. The URPIC-2 report directly to COMSEVENTHELT.
- 3. The messages cited above from b to d will be transmitted as soon as possible after the message indicated in a.
- 4. All messages will begin: "THIS IS AN URPIC-2 REPORT"
  with, in the case of b and c, indication for lateral dissemination as
  stated, classification TOP SECRET NOFORN limited distribution,
  CIA representative will advise the Commander URPIC-2
  with regard to standard sanitisation procedures hitherto routine in
  URPIC reporting from URPIC-1 and URPIC-W.
- 5. It may be that in the judgment of the Commander URPIC-2 highly significant information of timely interest may be transmitted on a flash basis through the channels outlined in paragraph 2 a without awaiting the completion of the PI.
- 6. Advices from HTAUTOMAT in terms of community needs for PI work will be transmitted through AFCIN to Commander URPIC-2. Interrogations from the Commander to Headquarters destined for either AFCIN or HTAUTOMAT will be transmitted from him to AFCIN.
- 7. Air Force is currently making arrangements to send an ELINT operator to make a preliminary audio read-out of System One if used. Reports of his read-out will be disseminated as indicated only in paragraph 2 a above. (The analyst in question will not be given the track but will simply note the signals and the time at which they appear on the track. This information in the hands of Washington Headquarters when joined with the track will be of some use.)
- 8. It should be noted that the agreement to the use of the communications arrangements indicated above was based on the fact that it was much easier to use this channel in as secure a fashion as through the use of
